User Guide to VMALearner

A user guide or also commonly known as is a technical communication document intended to give assistance to people using a particular system. It is usually written by a technical writer, although user guides are written by programmers, product or project managers, or other technical staff, particularly in smaller companies.

User guides are most commonly associated with electronic goods, computer hardware and software, although they can be written for any product.

Testing Accommodations

If you have a disability that affects how you test, accommodations are available.

If you have a documented disability, you may be eligible for accommodations on the AP Exams such as:

- Extended time
- Large-type exams
- ATC format
- Large-block answer sheets
- Permission to use a braille device, computer, or magnifying device
- A reader to dictate questions
- A writer to record responses
- A written copy of oral instructions; as well as other accommodations

You must request accommodations from the College Board Services for Students with Disabilities office.

Scores for students who test with accommodations that have not been preapproved by the College Board will not be reported.

Agreeing to Exam Security Policy and Procedures

All AP students deserve a fair and uniform testing experience, whether they are taking the exam in Connecticut, California, or China.

To help make this happen, the AP Program requires every AP student to read, agree to, and follow the "Test Security and Test Administration Policies and Procedures" that appear each year in the Bulletin for AP Students and Parents.

On exam day, before you can take your AP Exam, you will be required to sign your answer sheet, indicating that you have read and agree to follow all the policies and procedures in the Bulletin for AP Students and Parents. You will also need to sign the covers of your multiple-choice and free-response booklets, affirming statements related to the security of the exam.

See the Exam Security webpage for information about an update to the College Board test security policy that prohibits individuals from taking the SAT, SAT Subject Tests, and AP Exams when we conclude they have gained or attempted to gain or share an unfair advantage on any College Board tes
